

Welcome to the team as

**Corporates & Markets, Fixed Income and Currencies
Intern – Structuring/Quantitative Trading/Financial Engineering**

London – Frankfurt

Task

We are looking for Structurer/Quantitative Trader/Financial Engineer Interns within the Fixed Income and Currencies business unit in London and Frankfurt.

You will support trading, structuring and sales in their daily operations. You will be developing and defining processes, systems and procedures ensuring work standards and requirements are met. You will develop own professional expertise through on-the-job training, formal training and, where appropriate, professional qualifications.

Profile

- Master's degree in a quantitative subject, such as Math, Physics, etc. Degree in Financial Math a plus
- attention to detail, ability to work hard in a dynamic, fast paced environment
- fluent English (German and other languages would be a plus)

The position consists of an off-cycle 6 to 12-month contract starting in H1 2016 and is based in London. The internship may involve travel / stay in Frankfurt as well.

Apply

To apply please email your CV and brief cover letter to Stefan Haupt at stefan.haupt@commerzbank.com.

Company

Fixed Income & Currencies is formed by a series of sales and trading teams based mainly in London and Frankfurt, but also present in NY, Singapore, Hong Kong, Beijing, Tokyo, Moscow, Prague, Budapest, Shanghai, Dubai, Paris, Brussels and Zurich. The business is product-driven, manufacturing financial products principally for Corporate and Institutional clients, but also for Retail distribution and Private Banking networks. Its' competitive edge comes from product choice, product innovation and high quality pricing and market making, together with the ability to customise solutions to clients' needs.
