Option #1

Waymo (formerly Google's self-driving car project) is an autonomous driving technology company driven to increase personal and professional mobility. The Waymo + Formation program is free and aims to provide opportunities for women in Poland interested in employment in tech through personalized software engineering training and world-class mentorship provided by top engineers from the tech industry.

Who should apply:

- Polish university students pursuing a BS/MA in a technical field (Computer Science, Engineering, Math, Static) graduating between December 2025 and June 2027.
- Masters students seeking internships between 1st and 2nd year of their studies.
- Individuals fully fluent in English both written and verbal

Successful participants are eligible to interview for a software engineering internship at Waymo's Warsaw office for Summer 2025. [Apply](#) today until May 17!

Option #2

Join Waymo (formerly Google's self-driving car project), the leading autonomous driving technology company, in revolutionizing mobility. Through the free Waymo + Formation program, we're empowering women in Poland to excel in tech careers with personalized software engineering training and mentorship from industry experts.

Who should apply:

- Polish university students pursuing a BS/MA in technical fields (Computer Science, Engineering, Math, Static) graduating between December 2025 and June 2027.
- Master's students seeking internships between their 1st and 2nd years of study.
- Individuals fluent in English, both written and verbal.

Successful participants may interview for a software engineering internship at Waymo's Warsaw office for Summer 2025. The program is 100% free. [Apply](#) by May 17!

Option #3

Join the Waymo + Formation program to further Waymo's (formerly Google's self driving car project) mission to enhance mobility. Empowering Polish women in tech, this free program offers personalized software engineering training and mentorship.

Who should apply:

- Polish university students pursuing a BS/MA in technical fields (graduating Dec 2025 - Jun 2027).
- Master's students seeking internships (1st - 2nd year).
- Fluent in English.

Successful applicants may interview for a Summer 2025 software engineering internship in Waymo's Warsaw office. [Apply](#) by May 17!
